TKM-350 Wireless Silent Keyboard and Mouse Set

Makes Work Easy

The Trust TKM-350 Silent Wireless Keyboard with Mouse is the right combo to make your work more comfortable than before. The silent keys prevent others from being disturbed by your work, the keyboard itself is spill resistant, and thanks to this set being wireless it will provide plenty of flexibility. It even comes in easy-to-open and sustainable packaging, made of 100% recycled material, that saves both the environment and time.

Everything You Need

The TKM-350 Silent Wireless Keyboard provides everything you need for a smooth typing experience. The low-profile full-size layout has a silent keystroke, while the adjustable angle and rubber anti-slip feet will help you work comfortably for hours. It's spill resistant and has 12 multimedia function keys; everything you will ever need to get the job done.

Modern Mouse

The accompanied mouse has a similar modern design and comes with silent buttons as well. No one will be disturbed by your hard work. It has a DPI button so you can adjust the speed of your cursor, and the mouse uses a reliable optical sensor so you can work on most surfaces. Flexibility is the keyword, here.

Wireless Without Hassle

This set uses the same wireless USB receiver for both the keyboard and the mouse. Just plug it into a free USB port in your PC or laptop and you're good to go. And when you're done, you will easily store the receiver in the mouse itself when you want to take this set with you.
